

Zoo Roundup Classification Activity

The animals at the zoo are on the loose. As head zookeeper it is your job to round them up and put them in the proper cages. The zoo is separated into these 5 areas (Fish, Aquatic Mammals, Terrestrial Mammals, Reptiles and Birds).

Classify each of the animals according to their individual characteristics. Use the following key as a guide and put them back in the right enclosure.

Fish	Aquatic Mammal	Terrestrial Mammal	Reptile	Bird
Cold Blooded	Warm Blooded	Warm Blooded	Cold Blooded	Warm Blooded
Eggs/Live Birth	Live Birth	Live Birth	Eggs	Eggs
Lives only in water	Lives only in water	Lives on Land	Lives in water and on land	Lives in water and on land
Gets oxygen from water/has gills	Gets oxygen from air/ has lungs	Gets oxygen from air/ has lungs	Gets oxygen from air/ has lungs	Gets oxygen from air/ has lungs
Fins/Scales	Fins/Hair	Fins/Hair	Scales	Feathers
